

Expansion is on the Horizon at Community Memorial Hospital

Two homes located on North Edwardsville Street are being demolished. The homes were purchased by Community Memorial Hospital with future plans for the site to include a new medical office building and additional parking for the hospital complex.

Currently, the Staunton Zoning Committee is working with the hospital engineer to address rezoning from residential to commercial.

Progression and advancement is vitally important to our community. Community Memorial Hospital of Staunton is proud to be part of this growth.
